PURPOSE

Since 1990, the For the Common Good project has encouraged the development of collaborative interagency linkage teams at the local level. During that period, programs and policies requiring collaboration developed and changed. Common Good Local Linkage Teams have adapted to these new contexts. The recent merger of the Ohio Department of Human Services and the Ohio Bureau of Employment Services and the implementation of the Workforce Investment Act throughout Ohio have presented extraordinary challenges for collaboration at the local level. ***For the Common Good: Celebrating the Past and Positioning for the Future*** will provide an opportunity to discuss the current challenges and anticipate the future for local interagency collaboration. **Participants are invited to use the registration form to submit questions that they would like addressed during the program.**

In the event that you are unable to include your question in the space provided, please feel free to use a separate sheet of paper for the remainder of your question. Please ensure that your question is mailed with your completed registration form.
