Standard(s) Addressed in Lesson Write to Convey Ideas																			
Benchmark(s) Addressed in Lesson W.4.15. Use correct spelling in writing consistently. W.4.16. Punctuate writing correctly using semicolons, colons, hyphens, dashes and brackets. W.4.17. Use correct capitalization. W.4.20. Proofread writing and edit to improve conventions and to correct dangling and misplaced modifiers, fragments and run-ons.																			
Materials <i>Career Facts</i> sentences																			
Learner Prior Knowledge Basic knowledge of biology and physiology vocabulary, basic knowledge of writing conventions; knowledge of audience, purpose, and credibility.																			
<p><u>Step 1</u> Distribute print outs of <i>Career Facts</i> sentences to students. Read the sentences aloud. A student volunteer may read the sentences or the instructor may read the sentences to the class. Discuss with the class why these sentences might be written (purpose) and who will be reading them (audience). Ask the class to offer reasons for insuring that a document contains professional writing conventions, including spelling (credibility).</p> <p><u>Step 2</u> Each student will then make corrections to the printed sentences.</p> <p><u>Step 3</u> Students may check their work using the corrected passage. The teacher should review and re-teach skills as necessary.</p>																			

Assessment/Evidence:

Students will compare their written sentences to the correct versions of the sentences.

Adaptations for Beginning Students:

Beginning students may be expected to have more errors and may be given extended time.

Adaptations for Advanced Students:

Advanced students will be expected to have few or no errors and may be given a challenging time limit for completing the assignment.

Teacher Reflection/Lesson Evaluation:

Students should easily perceive the importance of polished writing for creating clearer communication in a professional document.

This lesson was created by Middletown ABLE.
